Dear Hiring Manager,

I am writing to express my interest in the Technical Support / IT Helpdesk position at your company. With a Bachelor of Science in Information Technology background and hands-on technical support experience through my internships at Concentrix and J&T Express Philippines, I have developed practical skills in troubleshooting hardware and software issues, supporting end users, managing technical requests, and maintaining reliable IT operations.

During my internship at Concentrix, I provided technical support for hardware and software concerns and handled support requests through the SolveNow ticketing system while maintaining strong SLA compliance and positive user feedback. I also assisted with the deployment of more than 200 computers in a production environment, including hardware setup, software installation, and configuration. In addition, I used Reimage for system reimaging, troubleshooting, and recovery to help minimize downtime and maintain system performance.

My internship at J&T Express Philippines further strengthened my technical and operational skills. I assisted senior technicians in configuring and maintaining CCTV surveillance systems, cameras, and recording hardware. I also worked closely with the security team to identify technical issues and document incidents using Microsoft Excel, which strengthened my attention to detail, communication, and problem-solving abilities.

I am particularly interested in Technical Support and IT Helpdesk because I enjoy troubleshooting technical problems and helping users resolve issues efficiently. I understand that effective IT support requires not only technical knowledge, but also patience, clear communication, proper documentation, and the ability to remain composed when handling urgent or challenging concerns. My experience with support ticket management, hardware and software troubleshooting, computer deployment, system recovery, and end-user support has prepared me to contribute effectively to an IT support team.

I would welcome the opportunity to bring my technical skills, willingness to learn, and strong work ethic to your organization. I am confident that my hands-on experience and foundation in Information Technology would allow me to become a dependable member of your technical support team.

Thank you for considering my application. I would appreciate the opportunity to discuss how my skills and experience can contribute to your organization.

Sincerely,

Jade C. Alicaway
